Proudly Hosted By Warrego Water Services

Warrego Water Services are the market leader in the irrigation industry providing products and services to agricultural, domestic and industrial customers Australia wide, dealing in all aspects of pumping, irrigation and water filtration from all the major manufacturers. We specialise in various irrigation methods such as flood irrigation, broad acre irrigation including centre pivot, lateral move and travelling irrigators. Trickle, spray lines, sub-surface and home irrigation such as pop-up sprinkler and garden watering systems. We also manufacture and supply diesel pump sets and generator units.

With water being our most precious asset, irrigation systems should be designed to give the most efficient distribution of available water. Warrego Water Services can design, supply and install any pumping and irrigation system that you require and provide a free no-obligation on-site quote.

We have recently moved into our new larger premises and carry a full range of poly and PVC pipe and fittings, household pressure pumps, submersible bore pumps, pressure cleaners, garden hoses and sprinklers. Knowledge is everything so call our friendly team or visit our stores in Dalby, Toowoomba and Warwick and experience the difference today!
